Rittal New Zealand signs New Distribution Partnership with Cuthbert Stewart Ltd.

Rittal New Zealand is pleased to announce, effective 1st September 2017, a new national distribution partnership with Cuthbert Stewart Limited, a specialist electrical industrial equipment distributor of market-leading, globally recognised brands.

Since its foundation in 1948, Cuthbert Stewart Ltd (CSL) has adhered to its simple philosophy of supplying its customers with the best product solutions from the global market place. CSL's objective is to bring innovative tested solutions to customers and to form long term successful partnerships. An extensive stock holding of leading brands and "value adding" services combine to give CSL a real point of difference.

Rittal ANZ Managing Director Michael Mallia said that "CSL's extensive sales and distribution network will provide the electrical wholesale market with better access to our products, as well as opening up new opportunities to customers that leverage CSL's value added services. Our range of industrial enclosures, climate control units and power distribution systems perfectly complements CSL's range of Power and Automation & Control".

Phil Elliott, CEO of Cuthbert Stewart Ltd added, "Rittal is a strong global brand delivering an extensive product portfolio which has a great fit within our range. It also fits perfectly with our brand promise of delivering *Quality on Time*. We're excited at the possibilities this new partnership with Rittal offers for our customers"
