

Fluke Power Quality and Energy Measurement Troubleshooting Workshops with Cuthbert Stewart Limited.

Cuthbert Stewart with Fluke Australia are bringing back their popular Power Quality and Energy Measurement Troubleshooting Workshop in 2018! This workshop will provide attendees with a practical understanding and knowledge of the problems, principles and practices that are associated with power quality and energy measurement.

Power Quality Workshop

What you will learn:

Learn how to detect and prevent power quality problems with the right tools and knowledge from Fluke.

- Fundamentals of power quality
- Develop skills for better measurements
- How to troubleshoot power quality problems and save money by improving power quality
- How to reduce downtime by using planned maintenance techniques

Perfect for:

Plant Electricians, Electrical Contractors, Facilities Maintenance Managers, Operations & Manufacturing Managers, Reliability Professionals, Maintenance Professionals, Service Professionals

Energy Measurement Workshop

What you will learn:

Learn how to identify and quantify energy waste.

- Strategies to lower your energy bill
- Tools to identify and quantify waste
- Measure and log power consumption
- Identify and measure common production process system wastes
- Detect energy waste with vibration detection and analysis
- Quantify electrical cost of ventilation
- How to reduce HVAC costs

Perfect for:

Plant Maintenance Engineers, OEM Field Service & Energy Consultants, Facility Managers, Electrical & Facility Contractors, Energy Inspectors
