# BELDEN REVConnect Connectivity System

Relying on a single termination method, the REVConnect® Connectivity System uses a universal termination core for all shielded and unshielded Category 5e, 6 and 6A RJ45 connections. Designed based on feedback from installers, integrators and consultants, REVConnect can cut termination time by up to 60%

## BENEFITS

- Simplifies termination and reduces rework with no pair separation needed
- Improves network uptime with strong, reliable insulation piercing contacts
- Terminates a jack or a plug onto a single core interface compatible with eight RJ45 modules
- Supports reliable, easy termination for wired LANs and IoT devices needing up to 100W of power
- Eliminates punchdown or single-wire crimping process
- Reduces lengthy technician/installer training requirements
