

From now on THIS is a distribution board

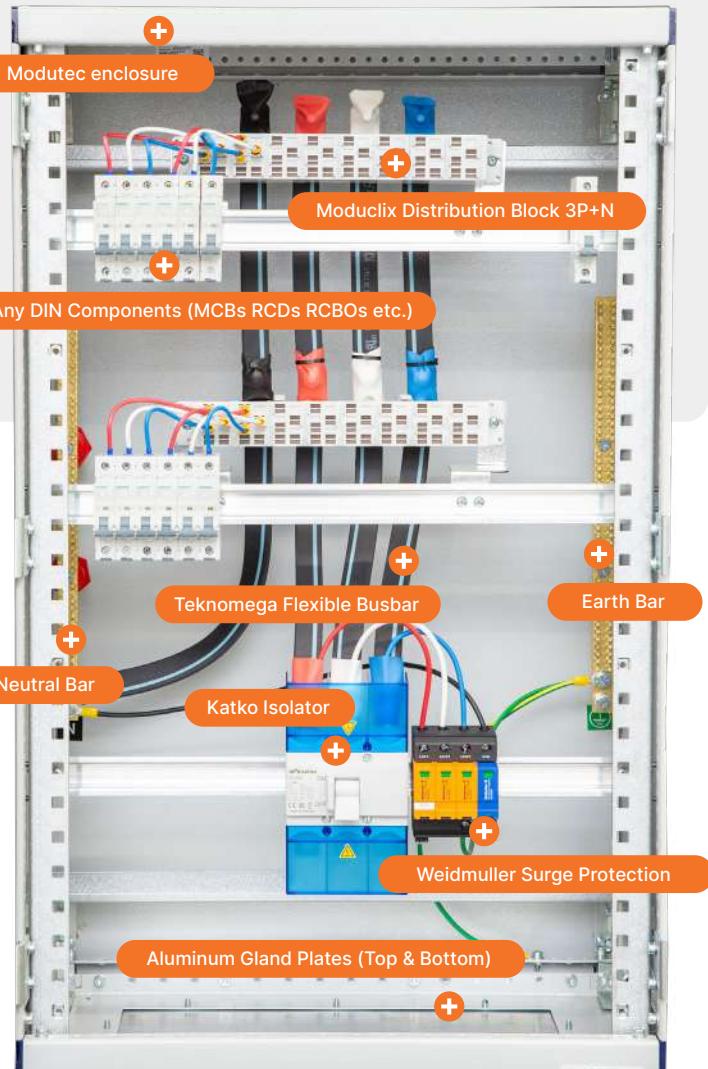

Modular. Versatile. Simple.

The new standard in commercial power distribution

Say goodbye to the limited space and capacity of PAN assemblies and easily deploy ModuClix distribution boards that contain everything your application needs.

The ModuClix range is designed to provide increased wiring room, universal DIN component inclusion, manufacturer agnostic MCB selection, superior cabinet space and quick toolless connection all within a high-quality, fully type tested enclosure.

ModuClix's unique modular approach makes getting your hands on pre-configured distribution boards for any of your projects an easy and fast process. [LET'S GET GOING >](#)

Modular

18, 24, 36, 48, 54 & 72 ways up to 250amps and any brand MCB you like

Versatile

Include RCDs, RCBOs, Contactors and any DIN mounted auxiliary with ease

Simple

Spacious standardised configurations delivered install-ready to you

Fit-for-purpose configuration

ModuClix universal chassis makes it easy to configure your fit-for-purpose distribution boards regardless of component type or manufacturer. Though optimised for Siemens switchgear, any DIN mounted componentry can be housed in the IP44 Modutech stainless steel enclosure.

This versatility makes the ModuClix DB solution ideal for deployment in HVAC, mechanical or industrial environments, with all componentry connected to the ModuClix Distribution Block and fed through the 250amp Katko 3P Main Isolator.

ModuClix secret sauce

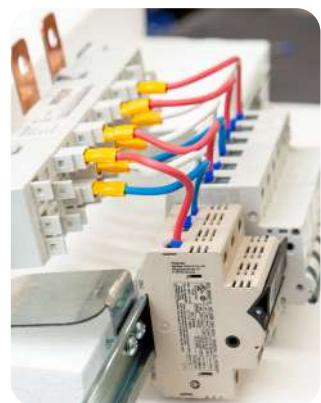

At the heart of the ModuClix DB solution is CSL's custom designed and developed 250A 4P Power Distribution Block. Offering easily accessible neutral termination enables a fully flexible approach to component layout and the simple inclusion of any DIN mounted auxiliary within your distribution board.

The ModuClix Distribution Block also introduces safety by design with spring terminals that remove the risk of arcing while enabling quick and simple terminations and future reconfigurations.

Your customisations

ModuClix's standardised universal system delivers huge advantages while remaining cost-effective but it can easily deliver on your application specific requirements.

Talking to the experienced CSL:DB switchboard team can unlock options in cable management, metering, special components, busbar systems, additional DIN rails and more.

| ITEM CODE | DESCRIPTION |
|-------------|---------------------------------|
| CSLDBX18100 | MODUCЛИX DB BOARD 18WAY, 100AMP |
| CSLDBX24100 | MODUCЛИX DB BOARD 24WAY, 100AMP |
| CSLDBX24160 | MODUCЛИX DB BOARD 24WAY, 160AMP |
| CSLDBX24250 | MODUCЛИX DB BOARD 24WAY, 250AMP |
| CSLDBX36100 | MODUCЛИX DB BOARD 36WAY, 100AMP |
| CSLDBX36160 | MODUCЛИX DB BOARD 36WAY, 160AMP |
| CSLDBX36250 | MODUCЛИX DB BOARD 36WAY, 250AMP |
| CSLDBX48100 | MODUCЛИX DB BOARD 48WAY, 100AMP |
| CSLDBX48160 | MODUCЛИX DB BOARD 48WAY, 160AMP |
| CSLDBX48250 | MODUCЛИX DB BOARD 48WAY, 250AMP |
| CSLDBX54100 | MODUCЛИX DB BOARD 54WAY, 100AMP |
| CSLDBX54160 | MODUCЛИX DB BOARD 54WAY, 160AMP |
| CSLDBX54250 | MODUCЛИX DB BOARD 54WAY, 250AMP |
| CSLDBX72100 | MODUCЛИX DB BOARD 72WAY, 100AMP |
| CSLDBX72160 | MODUCЛИX DB BOARD 72WAY, 160AMP |
| CSLDBX72250 | MODUCЛИX DB BOARD 72WAY, 250AMP |
